Keeping the Peace: 5 Inexpensive Tips for Soundproofing Your Apartment

Do you believe that silence is golden? Then check out these 5 easy and inexpensive ways to soundproof your apartment.

- Hang up thick curtains to reduce the noise coming in through your windows. If you're very sensitive to sounds, consider purchasing noise-canceling or soundproof curtains.
- Place draft stoppers at the bottom of your doors. These can reduce the level of outside noises entering your apartment.
- Use a sound machine. By playing white noise (or brown, green or pink noises), you can muffle any outside noises that may be disturbing your peace.
- Decorate your walls. By hanging up heavy tapestries or cork photo boards, you can deaden some of the noises coming in through your walls.

Question: Can I Make a Copy of My Apartment Key?

Although it's technically not illegal to copy the key to your apartment, there may be restrictions in your lease agreement that prohibit you from doing so. In addition, if your key has "Do Not Copy" engraved into it, many locksmiths will refuse to make a duplicate.

This is really for your safety and the safety of others in our community. The more people that have keys to our apartments, the more accessible they become to others. And the safety of our community members is of paramount importance to us.

If you need or want another key to your apartment, please check your lease agreement for any restrictions. If making a copy is strictly prohibited, please consult with property management. In most cases, the property manager will -- for an additional fee -- honor your request for an additional key.

- Buy value packs of meat and poultry at your grocery store and meal prep. When you buy in bulk and cook several days' worth of meals at one time, you can save money on your grocery bill.
- Check out Buy Nothing groups on Facebook. You might be surprised (and delighted) by the amazing items that people just want to give away, including furniture and decorations.
